At Stanley/Stella we believe that colour brings joy and can inspire us to think and create in new ways. We delight in offering our customers a truly innovative choice of tones and textures. Each season, we work creatively to research and develop our well-thought-out, versatile palette that includes timeless best-sellers, new on-trend shades, soft heathers and unique patterns. This drives us to push the boundaries and bring new energy to the market. And because we know how important accurate colour selection is for your product development, we provide Pantone, CMYK and RGB equivalences to support your choice of Stanley/Stella colours.

### **⚠ IMPORTANT**

Colour equivalences between TCX and C are provided by Pantone Connect. CMYK and RGB references have been defined to match our fabric colours as accurately as possible. Certain colours (Heathers, Tie&Dye and G. Dyed colours) are difficult to translate into accurate colour references. If you have any doubts in relation to a colour we recommend that you order a sample. Colour appearance may vary depending on the screen.
